

SAVANT

LEGACY SPOTIFY FUNCTIONALITY DISCONTINUED

As you may know, earlier this week Spotify discontinued support that allowed for music access using legacy integration protocols. This has the potential to impact your Savant Music experience, as you may not be able to authenticate your Spotify account.

In 2021 Savant released an updated [Savant Music experience](#) that supports the latest Spotify integration, Spotify Connect. Spotify Connect integration delivers an enhanced music listening experience for all members of the household, including instant switching and nonstop tunes.

In order to continue to access your Spotify music from the Savant app, your Savant Home requires a software update. We recommend contacting your local Savant Integrator who can advise on the right path forward.

Thank you for selecting Savant as your trusted smart home platform.
